During the winter phase (October -March) activities will include: a) promotion of international voluntary work to the public via open days, seminars, presentations etc, b) search for co-operating organisations and local communities for the organisation of volunteer programmes, c) contacts with NGOs and networks, d) promotion to the media, and e) sending long-term volunteers abroad. The volunteers can also be responsible in helping to organise a campaign on Sustainable Lifestyle and/or a campaign on Human Rights.</p>

<p>Overig: In practice, the division of time is quite flexible and Promovolus will arrange with other SCI volunteers how the work is going to be divided and done and when. It is possible that one day they will be at the SCI office having a meeting or preparing presentation material, another day they could arrange meetings with organisations, media etc outside the office, etc. The only fixed arrangement is the bi-weekly meeting of SCI volunteers that takes place in the office and the EVS volunteers will assist. There, the working plan for the following week will be arranged, and the work of the previous week evaluated.</p>
