Vacature voor Lange Termijn Uitzendingen

EVS project “Foreste casentinesi” (2002-IT-170) Italië - Asqua

Project

EVS volunteers will mainly support local staff and volunteers in the preparation and running of the activities. They never serve alone. They will be integrated in all possible fields of activity, totally excluding administrative and promotional tasks and with a mix of in-door and out-door services. Activities will be held in the different centres involved in the project. The following are the main areas of possible services:

1. Environmental educational units for school, children and teen-agers groups
2. Scientific research and monitoring of the Casentino valley's fauna
3. Collecting and providing information for eco-touristic excursions (mountains)
4. Support youth taking part in (inter)national voluntary camps all over the year

Organisatie

Our organisation, local group of Legambiente, works in the area of the national park of the Foreste casentinesi (Casentino is the local geographical name of the main valley). We run a multi-purposes project called Centre for Environmental Education and sustainable development. It includes 3 different areas of activities: excursions and environmental education (Asqua chalet), training (Mulino delle Cortine), bio-logical agriculture (Villanova farm). We work on education, cultural and professional training, local development issues, sustainable eco-tourism, food culture, social and anthropological study and research about the area of the Casentinesi woods, scientific researches on local fauna. All these activities are run in co-operation with local institutions and they are used and supported by local and national authorities.

Gewenste/vereiste vaardigheden & houding

The project is open to any well motivated and prepared volunteer.

Accommodatie en voorzieningen

Accommodation is to be defined.

A mentor will support the EVS volunteer. The majority of local Legambiente volunteers are young people, so that social integration won't be difficult for EVS volunteers.

Periode

We need vols for the period of 10 months, starting Sept 2005.

Service week schedule for EVS volunteer will be planned individually according to personal skills and interests, as well as to running activities. Normally service will cover 4-6 hours a day from Monday to Friday, for 30 hours per week maximum. Saturday and Sunday are normally days-off, unless activities should run on week-end so that the volunteer can take their days off during the week.

Kosten

Zie gedeelte algemeen EVS op deze website

Overig:

In their free time volunteers can in any season go for natural excursions around Asqua and to the different villages or main towns, which proposes several leisure activities and living meeting points, in particular on week-ends.
